M.A.C.H. 3

The speed of an F-15 fighter and the thrills of laser game realism make M.A.C.H. 3 a revolutionary new arcade experience.

After selecting one of 2 exciting adventures—the Bombing Run or the Fighter Raid—you fly your jet through the air in search of enemy targets which are enhanced by your on-board computer. Attacking enemy aircraft and ground-to-air missiles keep you on your guard at all times during your mission.

The graphics are incredibly realistic, the action is fast and challenging, and the game collects faster than the speed of sound.

See your Mylstar distributor for the exciting details.
